

WG-1 & WD 1-1/4

8" - 36" Lines

Municipalities

WG & WD WARTHOGS[®] More Power & Flow

We offer two larger **WARTHOG**[®] models to handle municipal, industrial and commercial drain cleaning applications. By installing replaceable nozzle tips that are sized to get the most efficiency and effectiveness from your pump these tools become highly productive. They eliminate the need for using several types of specialty tools to get the job completed.

WD 1-1/4 - High Flow Model

The **WD 1-1/4** is designed to handle all the same applications as the **WG-1** except it is capable of 80-120 gpm flows. The 1-1/4" inlet combined with 7 ports effectively distribute the higher flows.

WG-1 8" - 36" Lines

The **WG-1** is the proven choice for municipalities who are faced with cleaning pipes from 8"- 40". Large combination trucks with 1" hose use this tool predominately. Municipalities all across America are relying on this tool to handle their biggest challenges.

Descaling Jets

Descaling Heads are available on both **WG** and **WD** models. Please see page 6 for examples.

WARTHOG[®] WG & WD Specs

MODEL	WG-1		WD 1-1/4	
Maximum Pressure	3,000 psi	200 bar	3,000 psi	200 bar
Operating Pressure	1,500 - 3,000 psi	100-200 bar	1,500 - 3,000 psi	100-200 bar
Rotation Speed	150-300 rpm		150-300 rpm	
Flow	50-80 gpm	190-300 lpm	80-120 gpm	190-450 lpm
Flow Rating	4.6 Cv		7.6 Cv	
Pulling Force	70-100 lbs	310-450 nt	130-190 lbs	600-850 nt
Inlet Port	1 npt or BSPP		1-1/4 npt or BSPP	
Length	9.1 in.	231 mm	9.1 in.	231 mm
Tool Diameter	4.2 in.	107 mm	4.2 in.	107 mm
Ports	5 x 1/8 npt		7 x 1/8 npt	
Weight Complete	10.9 lbs	4.9 kg	11 lbs	5.0 kg
