

WARTHOG® Sewer Nozzles

Tools for all Purpose Sewer Cleaning

Our **WARTHOG**® line of tools are designed to be the most effective sewer cleaning tools on the market. Benefits of the **WARTHOG**® include:

- **Patented controlled rotation** Jets evenly clean the pipe at a controlled and more productive speed.
- **Fewer number of jets** More power per jet results in superior root cutting and unmatched wall cleaning.
- **Easy field maintenance** Requirements are simple and quick. Customers spend an average of 15 minutes per year replacing the seals. Our rugged design and simple to follow repair videos make it easy to keep your tool in top condition.
- **Replaceable nozzle tips** Our hard hitting **Attack Tip** nozzles are field replaceable and keep your tool performing at its best.

SEWER JETTING

All these features make it possible to cut roots, clear grease, ice blockages and remove hard mineral deposits with just one tool!

WARTHOG® - WG-1" Model

The newest addition to the **WARTHOG**® family is the **WD 1-1/4**, shown above. This tool is designed to handle 80-120 gpm and 1-1/4" size hose. It has 7 ports to distribute the higher flows and offers tremendous pulling power while providing excellent pipe cleaning. Family specifications are listed below and individual model specifications on the following two pages.

If you haven't seen one at work in the field, give us a call and we'll send you a demo video/CD. You can also find more information, pump compatibilities and technical specs at our special web site for these tools on the web at: www.sewernozzles.com.
