

# 40k Air-Powered Cleaners

## UH-40™ & UH-50™

### UH-40™ Air with Bar Head

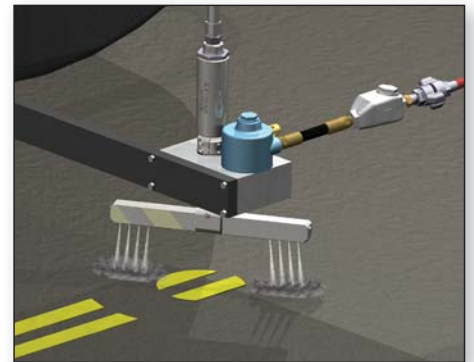

**40k psi  
Air-powered  
& Hydraulic  
Surface  
Cleaners**

40k psi with 4-arm assembly.

### Powered Rotation to 40k psi

The **UH-40™ & UH-50™ Series** features the reliable **StoneAge® UH-H9G12 Swivel** and belt drive system for thorough and productive surface cleaning. Replaceable sapphire jets provide hard hitting power for epoxy coating removal or other surface preparations. The **UH-40™** uses an air motor and the **UH-50™** a hydraulic drive. Additional options include a 4-arm jet assembly with up to a 20" jet path or the bar head configuration which gives a 14" jet path. Both feature a rugged, high flow design, an optional 90° inlet and use **3/8" OS6 Sapphire** nozzle tips.

Airport runway paint removal.

### UH-50™ Hydraulic with 4 Arm Assembly

- Clean belts, screens & conveyors
- Remove epoxy coatings
- Clean paint line carriers
- Prepare surfaces for coatings
- Build custom cleaning systems
- Get results with minimum water flow
- More efficient than hand-held methods
- Optional 90° inlet

### UH-40™ Air-Powered UH-50™ Hydraulic

Pressure	40k psi (2800 bar)
Swivel	<b>UH-H9G12™</b>
Flow Capacity	20 gpm 80 lpm
Flow Rating	0.50 Cv
Rotation Speed	250-1000 rpm
Inlet Port	9/16 HP*
Outlet Shaft	9/16 HP*
Air Supply @ 80psi	40 CFM 20 l/sec
Weight	26 lbs 11.8 kg

\* High pressure cone & thread.
