

Bundle Blaster

Safe and Productive External Heat Exchanger Cleaning

Modular systems designed to fit your application.

The **Bundle Blaster** utilizes our **Blastrack** rail and tractor system to travel the length of the exchanger. The operator can adjust both the speed of rotation and the rate of travel across the exchanger. This system allows the use of either 15k, 20k, or 40k psi rotating spray assemblies. The **Bundle Blaster** package includes the tractor, rotating spray assembly, slotted rail, two A-frame assemblies and the control panel.

Detail of the **Blastrack** rotating spray head.

Bundle Blaster Specs	
MODEL	Bundle Blaster
Max. Pressure	15k, 20k, 40k psi
Flow Capacity	110 gpm 420 lpm
Rotation Speed	Up to 1000 rpm
Linear Speed	4 - 15 ft/min
Air Requirement: 80-130 cfm @ 80-100 psi 2.3-3.6 m ³ /min @ 6-7 bar	

- **More powerful and productive than hand held jetting**
- **Modular design allows for cleaning of different sized heat exchangers**
- **Easy to set-up and portable**
- **Increased operator safety**
- **Available in 15k, 20k, or 40k psi**
