

PRODUCT OBSOLESCENCE NOTIFICATION

Issue Date: February 23, 2018

The purpose of this notification is to announce the obsolescence of the following products.

Part ID	Description
HCS-2L-M24, HCS-2L-M24-V2	HCS-2L-M24- Autobox Hose Containment
HCS-2L-TM16, HCS-2L-TM16-V2	HCS-2L-TM16- Autobox Hose Containment
HCS-3L-M24	HCS-3L-M24- Autobox Hose Containment
HCS-3L-TM16	HCS-3L-TM16- Autobox Hose Containment

The Key Milestones in this obsolescence process are:

1. Formal Notification of Obsolescence on February 23, 2018
2. Orders for these products are no longer accepted as of January, 1st 2018
3. Replacement models and upgrade kits are available for purchase as of February 1, 2018

Reason for obsolescence

The 2L and 3L Hose Containments have been design iterated with two new features that improve job performance by increasing flow and reducing torque and drag on flex lances. All upgrades are backwards compatible with the prior versions of Hose Containment. Details are outlined below.

Manifold Change

The new 2L and 3L Hose Containments have been upgraded with larger MP9 outlet ports on the drum manifold. This manifold change improves the Cv (flow) and delivers more GPM to the cleaning tool. These new manifolds can be retrofitted to Hose Containments that were purchased before January 1, 2018.

Snout Assembly Change

The HCS-2L will exchange its multi-sheathed spring snout for a corrugated snout available in 2.00" or 1.25" outside diameter. The corrugated snout reduces torque and drag on the flex lances as they pass through the snout. Kits are available for retrofitted to Hose Containments that were purchased before February 1, 2018.

The HCS-3L hose containment will not see any change to its corrugated snout, however a 1.25" corrugated snout for Flex Lances 4/4 and smaller was added to the portfolio.

Replacement part Options

StoneAge will no longer support the affected items from the above identified assemblies after February 1st 2018. StoneAge will offer upgrade kits for customer wishing to upgrade their 2L hose containment purchased before January 1st 2018. StoneAge will also offer crossover kits to allow customers to purchase only the required components to cross over from 2.00" to 1.25" corrugated snouts (or the reverse). Please reference the chart below to determine replacement parts or kits.

Old Product (Obsolete)	New Product	Application
HCS-2L-M24 HCS-2L-TM16	HCS-2L-TM16-125 HCS-2L-TM16-200 HCS-2L-M24-125 HCS-2L-M24-200	--
HCS-3L-M24 HCS-3L-TM16	HCS-3L-TM16-125 HCS-3L-TM16-200 HCS-3L-M24-125 HCS-3L-M24-200	--
--	HCS 260-125	Converts a HCS-2L-XX- 200 into a HCS-2L-XX-125
--	HCS 260-200	Converts a HCS-2L-XX- 125 into a HCS-2L-XX-200
--	HCS 360-125	Converts a HCS-3L-XX- 200 into a HCS-3L-XX-125
--	HCS 360-200	Converts a HCS-3L-XX- 125 into a HCS-3L-XX-200
--	HCS 618-2L-125	Kit, Upgrade HCS-2L to HCS-2L-XXX-125
--	HCS 618-2L-200	Kit, Upgrade HCS-2L to HCS-2L-XXX-200
--	HCS 618-3L	Kit, Upgrade HCS-3L to HCS-3L-V2 (inner support to prevent collapse)

Repairs

Repairs for all hose containments will be available with the latest parts.

If you have any questions, please contact your account representative or me directly. Thank you.
